# BENEFITS OF STUDENTS USING PUBLIC TRANSPORTATION

---

Public transportation is great for students, parents, guardians and school districts.

## EASIER TO CATCH THE BUS

Port Authority buses regularly run every 15-25 minutes before and after school. This decreases the chances that parents and guardians must adjust schedules to transport their children to school.

## LESS TIME ON THE BUS

Port Authority buses are convenient for students attending schools located both inside and outside the Woodland Hills School District and may be used to reduce ride times.

## TAXPAYER SAVINGS

Riding Port Authority buses saves taxpayer dollars and decreases the likelihood of property tax increases.

## AFTERSCHOOL ACCESS

Port Authority buses run before and after school. This makes it easier for students to participate in activities, like sports and music.

Students are permitted to use Port Authority passes everyday, not just when school is in session. Download the mobile app below to access the trip planner, schedule finder, fare information and other useful features.
