

COLLEGE AND CAREER PATHWAYS

A career pathway is an organized **approach** to career planning. Creating a career pathway means plotting a course for identifying occupational interests, determining education and training needs and establishing an action plan for reaching career goals.

- A Pathway is a **sequence of courses** within your area of interest.
- A Pathway will **connect your career interests** from high school to college and/or career.
- A Pathway is your **educational road map** guiding you to the high school courses and post-secondary options most relevant to your chosen career destination.
- A Pathway will help you acquire the depth of knowledge and skill linked with specific post-secondary programs that will lead to a **certificate or degree and/or career**.
- **You choose**, you decide what Pathway is right for you.
